

SCOTT s ESD

0RV20116

DESCRIPTION

Low-heeled safety shoes with ultra-breathable nylon upper and **abrasion-resistant scuff cap on the toe**, with tone-on-tone effect. **Ultra-light safety shoes** that feature an **innovative tread** obtained with a new generation PU compound, and a brand new **puncture-resistant textile insole** to protect the sole of the foot, both **super light** and which greatly reduce the overall weight of the shoe without compromising **safety** and **comfort**. **Non-slip footwear** with **anti-static**, **oil-resistant** and **abrasion-resistant sole**. **AirToe Aluminium toecap**, **self-modelling**, **anatomical** and **antibacterial insole** and **Wingtex® air tunnel lining** that ensures moisture absorption and dispersion. **Summer safety footwear**, suitable for both **men and women**, ideal for use in a dry environment and, in particular for: **warehouse workers, transport and logistics sectors, carpenters, electricians and craftsmen** in general.

UPPER

Breathable nylon and abrasion-resistant scuff cap to protect the toe

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022
