

SCURO s ESD

0RI10164

DESCRIPTION

Men's safety shoes, also suitable for women, with **water repellent** upper in tumbled grain leather. Safety is guaranteed by the **Save & Flex® PLUS anti-perforation insole** in fabric and sewn directly on the upper, the **Airtoe composite toe cap** and the **anti-slip, oil-resistant, anti-static and abrasion-resistant PU/PU sole**. **High-cut work shoes** with a high level of comfort thanks to the **Wingtex® air tunnel lining** which ensures breathability to the shoe and the presence of the **WOW2 insole** made up of a self-modelling arched insole structure and an **anti-fatigue insert** with effects of greater balance, stability and perception of **long-lasting well-being** throughout the working day. The special protection of the sole from the cold (at temp. ≤ 10 °C.) makes **Scuro** ideal as a **shoe style for farmers, gardener, process workers, electricians, plumbers, carpenters, painters, gas station operators, mechanics, tyre repairers, transport and logistics**.

UPPER

Soft tumbled grain leather, water repellent

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022

SIZES

35-48 (UK: 2-13)

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
