

## STEVE s ESD

0RV20054

### DESCRIPTION

**Low-heeled safety shoes with PUTEK® star upper and toe protection with abrasion-resistant scuff cap. Ultra-light safety shoes highly resistant to abrasion and with particular protection of the sole from the cold.** These **non-slip shoes with anti-static, oil-resistant and abrasion-resistant soles** are fitted with a **tread** made with a particular super-light **new generation PU** compound that considerably reduces the overall weight of the shoe. The **AirToe Aluminium toecap** and the **new ultra-light puncture-resistant textile insole**, ensure protection of toe and sole of the foot while preserving the lightness of the shoe. Well-being and comfort are ensured by the presence of the breathable **U-Power Original** insole in light polyurethane compound; also, breathability is ensured by the Wingtex® **air tunnel lining** which guarantees air circulation and moisture absorption. **Safety footwear** suitable for: **craftsmen, electricians, carpenters, warehouse workers, and the logistics and transport** sectors.

### UPPER

PUTEK® star and abrasion-resistant scuff cap to protect the tip

### LINING

Wingtex® with breathable air tunnel

### TOECAP

AirToe Aluminium

### ANTIPERFORATION

Save & Flex Air

### MIDSOLE

U-Power Original

### SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

### ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

### SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

### PROTECTION CLASS

S3S CI FO SR

### EU NORM

EN ISO 20345:2022

### SIZES

35-48 (UK: 2-13)

### PU TEK STAR

A protective fabric featuring a geometric star pattern. It offers durability, flexibility and a PVC-free construction. Certified to ISO 20344:11, it provides air circulation and breathability four times greater than the minimum requirements for S3 safety footwear.

### ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

### AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

### U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
