

Model: **STOUT**

Article: WSY356GM

DESCRIPTION

Stout work trousers are made from a durable **stretch polyester/cotton** fabric designed to give you maximum freedom of movement in any situation. Thanks to the elastic inserts at the waistband and inner thigh, these trousers adapt to your body and provide lasting comfort throughout the day. The fabric is also **breathable** and **quick-drying** – essential features for those working in dynamic environments. Built to last, they feature triple-stitched seams and **Cordura** reinforcements in the areas most prone to wear and tear, such as the **hem**, the edges of the front pockets, and the bottom of the back pockets. The raised rear yoke provides extra lower back protection, while the central closure with zip and **scratch-resistant rubber button** ensures long-term practicality. Stout is a multi-pocket trouser that allows you to keep everything within easy reach. It includes two large front pockets, two back pockets with flap and Velcro, and a small zip coin pocket. There are also two multifunctional side pockets: one with adjustable Velcro for your phone and another with a concealed ID badge holder. Added features include a ruler pocket and a hammer loop. For your safety, the design includes reflective inserts below the knee, and on the back and side pockets, improving your visibility. Additionally, the Cordura knee pad pockets are compatible with the **ergonomic knee pads** certified to EN 14404 standard (Type 2, Level 1 Art. GC061BC), offering extra protection for your knees. Stout trousers are the ideal choice for all professionals seeking a rugged, comfortable, and functional garment.
