

# STRIDE ESD

OUT10104

## DESCRIPTION

**Stride safety shoes** from the Red Fit line provide the **ideal combination of protection, comfort and strength**, perfect for anyone who tackles dynamic and challenging jobs every day. The **water repellent, pull-up leather upper** with PU extra-strong reinforcement ensures maximum durability and protection from wear and impacts. The **FiberToe toe cap** and **Save & Flex® PLUS anti-perforation insole** guarantee all-round safety from impacts and punctures, while keeping the shoe ultra-comfortable and light. The **PU/PU abrasion resistant, oil-resistant, non-slip and anti-static sole** ensures stability even on difficult ground. The **three interchangeable U-Power original insoles** included in the box allow you to customise the fit and comfort. These **U-Power work shoes** are perfect for anyone who works in logistics, maintenance and production, or in industries that call for continuous movement and long periods standing up, ensuring comfort, safety and maximum performance whatever your job.

### UPPER

Soft, strong, water repellent, pull-up leather with TPU support heel. Extra-strong PU toe cap

### LINING

Wingtex® with breathable air tunnel

### TOECAP

FiberToe

### ANTIPERFORATION

Save & Flex® PLUS

### MIDSOLE

U-Power original

### SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

### ANATOMICAL INSOLE

Natural Confort 11-12-13 Mondpoint

### FIBERTOE TOE CAP

Made from fibreglass to provide high mechanical resistance to impact and crushing. Weighing approximately 52 grams, it offers thermal insulation, flexibility and comfort, whilst keeping the footwear lightweight and safe.

### SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

### ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

### U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
