DESCRIPTION

Women's safety shoe with **upper** made of soft **water repellent**, **tumbled microfibre** and **reinforced toe cap** made of polyurethane for greater protection and long-lasting footwear. The style, with its innovative signature ***Made in Italy* design**, ensures comfort and lightness thanks to the soft white **calfskin lining** which accommodates the foot from the toe to the heel. The new **U-Power Original insole** with leather base and lower section, made of a new polyurethane compound, ensures **balance** and **correct weight distribution**. **Lightweight work shoes** with Infinergy® midsole which ensures a **high return of energy**: over 55% with every step! **Safety footwear** with Airtoe Aluminium **toe cap** and Save & Flex® PLUS **puncture-proof fabric system**, sewn directly onto the upper, to ensure 100% protection of the sole of the foot. **Sole** made of **abrasion-resistant**, **non-slip**, **anti-oil** and **anti-static** compact PU. **Safety shoes** with **hydrocarbon-resistant** sole and special **protection from the cold** (At temp. ≤ 10 °C.). The ideal **work footwear** for use in the **logistics** and **automotive** field.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-42 (UK: 2-8)

UPPER

Soft, water-repellent microfibre with polyurethane reinforcement toe cover

LINING

Soft white calfskin

TOECAP

Airtoe Aluminium

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

U-Power original leather

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

WHITE TEX

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL LEATHER FOOTBED

Anatomically shaped footbed made of soft white calf leather with arch support structure. It features a self-moulding BASF compound designed to evenly distribute body weight pressure across the sole of the foot, enhancing comfort throughout the day.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.
