DESCRIPTION

Anti-static, water repellent shoes in soft, extremely robust, Pull-up leather, resistant to abrasion and dynamic traction. PU-reinforced scuff cap on the front and with double yellow and black lace. These safety shoes, particularly suitable for use outdoors, have a AirToe Composite toe cap and Save & Flex® PLUS, all-fabric, anti-puncture system which guarantees protection and safety. Protection class with special insulation on the bottom of the shoe against cold and an anti-slip, anti-static, abrasion resistant and oil resistant sole. The Wingtex® air tunnel inner lining makes these safety shoes particularly breathable, whilst the anti-bacterial, anatomical, ultra-breathable insole ensures prolonged comfort. These safety work shoes are perfect for use in outdoor environments, on uneven ground and treacherous surfaces, in wet and cold environments such as installations, construction and building sites, port areas, road works and maintenance, agriculture and gardens.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022

SIZES

38-48 (UK: 5-13)

UPPER

Water repellent, Pull-up leather

TOECAP

AirToe Composite

MIDSOLE

WOW2

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

LINING

Wingtex® breathable air tunnel

ANTIPERFORATION

Save & Flex® PLUS®, anti-puncture, "no metal" fabric insole

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
