DESCRIPTION

Anti-static safety shoes with anti-slip, oil resistant, abrasion resistant and "Metal Free" anti-puncture sole in PU/PU. The Save & Flex® PLUS anti-puncture system is stitched directly onto the upper and provides protection to 100% of the surface of the foot. These comfortable, soft shoes feature a water repellent, hard-wearing, Pull-up leather upper with Kevlar® DuPont™ stitching and double lace. Safety is ensured by the AirToe Aluminium toe cap and the tread offers high grip and stability of posture. The PU-reinforced scuff cap increases the footwear's resistance and strength. Work shoes with high energy recovery thanks to the Infinergy® system which ensures that over 55% of the energy is returned with each step, ideal for people with dynamic jobs in cold and wet environments, especially suitable for construction and building sites, port areas, road maintenance and road works, installations, and for work in agriculture and gardens.

UPPER

Water repellent, Pull-up leather

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS®, anti-puncture, "no metal" fabric insole

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU and Infinergy®

PROTECTION CLASS

S3S CI FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint®

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

EU NORM

EN ISO 20345:2022

SIZES

38-48 (UK: 5-13)

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
