

TONY s ESD

0RV20126

DESCRIPTION

Breathable and ultralight safety shoes with fresh and super breathable, **soft suede Airnet® upper**. **U-Power** has reduced the weight of these **safety shoes** thanks to the use of a new generation **particularly light** PU compound, used for the tread - **no-slip**, **abrasion-resistant**, **anti-static** and **oil-resistant** - which, combined with the new **ultralight puncture-resistant insole** and the **Airtoe® toecap**, made it possible to halve the overall weight of the shoe. These **light and breathable safety shoes** are ideal for the **warmer months** and guarantee protection and safety without compromising comfort. The **U-Power Original insole** - an an anatomic insole in light polyurethane compound - and the Wingtex® **air tunnel lining** ensure comfort and health of the foot. **Safety shoes** suitable for dry environments and, in particular, for **hauliers**, **logistics**, **warehouse workers**, **carpenters**, **electricians** and **craftsmen** in general.

UPPER

Ultra-breathable AIRNET and soft suede upper

LINING

Wingtex® with breathable air tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

Abrasion-resistant, oil-resistant, no-slip and anti-static in a new generation PU compound

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

35-48 (UK: 2-13)

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
