

Model: TREK LADY

Article: WFU402DP

DESCRIPTION

Trek is the U-Power cargo trousers designed for those seeking the perfect blend of practicality, comfort, and modern style. Made from U-4 stretch fabric, these trousers ensure total freedom of movement thanks to four-way elasticity and features such as water repellency, breathability, and quick drying.

Trek trousers are ideal for both work and leisure, combining technical details with a contemporary design. The jogging fit, enhanced by elastic fabric and inserts at the waist and hem, provides maximum comfort, while the zip at the bottom makes them easy to wear with high shoes or boots. The multiple pockets, including two front, two rear with zip closure, and two multifunctional side pockets with Velcro, are perfect for storing badges, tools, or personal items.

Durability and protection are ensured by wear-resistant knee reinforcements and a shaped back yoke, making them suitable even for demanding tasks. The reinforced loop with D-ring allows tools to always be within reach.

Reflective details, such as inserts behind the knees, on the hem, and on the back loop, increase safety in low-light conditions, while the reflective "U-Power" logo under the right pocket and the "lion head" rubber label on the left pocket add a stylish touch.
