

Model: TREK LADY

Article: WFU402GG

DESCRIPTION

Trek is the cargo trousers by U-Power, designed for those seeking the perfect blend of practicality, comfort, and modern style. Made from U-4 stretch fabric, these trousers ensure total freedom of movement thanks to four-way elasticity, along with water-repellent, breathable, and quick-drying properties.

Trek trousers are ideal for both work and leisure thanks to a combination of technical features and contemporary design. The jogger-style fit, enhanced by the stretch fabric and elastic inserts at the waist and cuffs, provides maximum comfort, while the zippers at the bottom make them easy to wear with high shoes or boots. The multiple pockets—including two front pockets, two rear zip pockets, and two multifunctional side pockets with Velcro—are perfect for storing badges, tools, or personal items.

Durability and protection are ensured by wear-resistant knee reinforcements and an enhanced rear yoke, making them suitable even for the most demanding tasks. The reinforced belt loop with a D-ring allows you to keep tools always within reach.

Reflective details, such as inserts behind the knees, at the hem, and on the rear loop, increase safety in low-light conditions, while the reflective “U-Power” logo under the right pocket and the “lion head” rubber label on the left pocket add a distinctive touch of style.
