VERVE

WFU340GG

DESCRIPTION

The **Verve technical jacket** by U-Power is designed to offer comfort, functionality, and style in any weather condition. **Made of an innovative softshell with** an **inner graphene micro-fleece**, it **ensures** even **heat distribution** for optimal comfort, regardless of the external temperature. Perfect for those who work on the move and need a versatile, durable garment, the Verve jacket features a removable, adjustable hood with elastic drawcord. It is **water-repellent** and ideal for facing any weather. Functional details include **adjustable Velcro cuffs** and a **shaped hem adjustable** with an internal drawcord. The collar is lined with soft micro-fleece for added comfort. With a **multi-pocket design**, this jacket provides plenty of storage space for all your essentials. Two hand-warmer pockets and two vertical chest pockets, each with a zip, are complemented by two spacious internal pockets. The **central waterproof zip closure** protects against the elements, while the contrasting colored teeth on the right vertical pocket add a stylish touch. **Reflective accents** on the chest and back **enhance safety in low-light conditions**. A modern design is completed by the reflective “U-Power” logo on the chest and back and the reflective “lion’s head” rubber label on the right sleeve. Available in four color variations: Black Black, Deep Blue, Dark Green, Grey Grey.

GRAFENE

Ultra-light structure with high thermal conductivity that promotes even heat distribution, offers antimicrobial properties and enhances fabric durability.
