VIBE ESD

0UT10134

DESCRIPTION

Vibe is the **U-Power safety shoe** designed to provide maximum safety, comfort and practicality. Made with a soft upper **in fine natural Nubuck leather**, it combines an elegant style with high resistance to wear and excellent protection. Featuring the innovative **BOA® Fit System**, the shoes are easy to put on and adjust, always ensuring an **accurate and comfortable fit**. The **FiberToe toe cap** is light yet provides **safety against impacts and crushing**, while the Save & Flex® PLUS anti-perforation insole protects your feet from punctures. The special **PU/PU Infinergy® sole returns energy at every step**, reducing the feeling of fatigue even during long working hours. The option of choosing from **three interchangeable U-Power original insoles** ensures a tailored and comfortable fit. Available in sizes from 35 to 49, these **high-top work shoes** are the ideal solution for anyone who wants maximum safety, comfort and daily practicality.

PROTECTION CLASS

S3S CI LG FO SR

EU NORM

EN ISO 20345:2022+A1:2024 S3S CI LG FO SR

SIZES

35-49 (UK: 2-13,5)

UPPER

Soft natural Nubuck leather, with TPU support heel

LINING

Wingtex® with breathable air tunnel

TOECAP

FiberToe

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11-12-13 Mondopoint

FIBERTOE TOE CAP

Made from fibreglass to provide high mechanical resistance to impact and crushing. Weighing approximately 52 grams, it offers thermal insulation, flexibility and comfort, whilst keeping the footwear lightweight and safe.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

BOA® FIT SYSTEM

BOA® Closure System. Fast-lacing technology that replaces traditional shoelaces with a micro-adjustable dial, lightweight stainless-steel laces, and low-friction guides. Designed to provide a precise, even, and customized fit with a simple turn, it ensures stability and safety throughout the working day. The system is resistant to impacts, mud, and wear, and allows the footwear to be removed quickly when needed.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.
