

VORTIX s ESD

0RI20666

DESCRIPTION

Lightweight and comfortable safety shoes with upper in soft perforated **suede** and mesh inserts. Contrasting yellow side bands and strings and **inner lining with air channels** for increased breathability and long-lasting comfort. **Anti-slip safety footwear** with **oil-resistant, abrasion-resistant** and **anti-static sole**. **Vortex** is a style of **low-cut work shoes** that ensure well-being throughout the day thanks to the **WOW2 self-modelling** insole with anti-fatigue insert that reduces body stress and ensures correct distribution of body weight. **Safety footwear** with **AirToe Composite** toe cap and **"No Metal" Save & Flex® PLUS anti-perforation system** sewn directly onto the upper. **Work shoes for both men and women** ideal for **transport and logistics, craftsmen, builders, electricians, plumbers, gardeners and farmers, painters, mechanics** and **tyre repairers, warehouse workers, carpenters, joiners, process workers, gas station operators**.

UPPER

Soft perforated suede, breathable, with mesh inserts

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS

MIDSOLE

WOW2 anti-fatigue

SOLE/TREAD

Abrasion resistant, oil resistant, anti-slip, anti-static PU/PU

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
