WINSTON s ESD

LI10634

DESCRIPTION

High-top safety shoe designed for those seeking protection, comfort and safety at work. The PUTEK® PLUS fabric upper is highly abrasion-resistant, water-repellent and breathable, ensuring maximum durability and freshness throughout the day. The lightweight aluminium Alutoe toecap offers safety from impact and compression, while the SAFE-System anti-puncture system effectively protects the foot from possible hazards. The soft white calfskin lining ensures a pleasant feeling of comfort. The soft PU midsole with Infinergy® technology restores energy with every step and relieves muscle fatigue. An ergonomic BASF elastopan footbed and a non-slip PU sole with a lightweight, oil- and abrasion-resistant heel complete the product. S3S CI FO SR certified, it is available in sizes 38 to 47. It also has the additional ESD requirement for use in environments with a risk of electrical dissipation.

PROTECTION CLASS
