ZERUM

WMP434NB

DESCRIPTION

Technical base layer trousers developed as the first layer of a multi-risk system, part of a coordinated set with a long-sleeve shirt. Made from flame-retardant and antistatic fabric with intrinsic protection, they ensure certified protection and long-lasting durability even after frequent washes at 60°C. The 4-way stretch fabric follows body movements, providing maximum freedom and an ergonomic fit, while flat seams reduce friction for optimal comfort throughout the working day. Perfect for those operating in high-risk environments who require a reliable and high-performance base layer.

EU NORM

UNI EN 1149-5:2018, EN ISO 13688, UNI EN ISO 11612:2015, CEI EN 61482-2:2020

SIZES

S-5XL

COMPOSITION

60% Modacrylic • 39% Cotton • 1% antistatic fiber, 210 g
