

Model: BLANK MF

Article: UL20302

DESCRIPTION

The BLANK safety shoe by U-Power combines lightweight protection with everyday comfort. The water-repellent, breathable New Safety Dry upper and 3D mesh lining ensure excellent airflow and moisture control.

Equipped with an AirToe® composite toe cap (metal-free) and a dual-density PU sole with Infinergy® midsole, it delivers cushioning, energy return, and durability. The outsole is slip, oil, and abrasion resistant, while the SD 35 rating provides static dissipative protection.

Designed with a U-niversal fit and a clean white look, it's ideal for professional environments requiring comfort and reliability.
