

FALCON MF

0UL20336

DESCRIPTION

The Falcon MF is a lightweight, metal-free safety shoe designed for all-day comfort and protection in demanding work environments. It features a highly breathable textile upper with microfiber reinforcements and a 3D mesh lining for optimal airflow and moisture control. The AirToe Composite safety toe cap ensures full protection without metal components, while the dual-density PU sole with Infinergy® midsole delivers cushioning, energy return, and slip, oil, and abrasion resistance. Finished with a U-Power original footbed and SD 35 static dissipative protection, it combines comfort, safety, and performance in a clean black design.

UPPER

Breathable fabric with microfiber reinforcements
