

STORM MF

0UL20324

DESCRIPTION

The Storm MF is a robust metal-free safety shoe designed to deliver reliable protection, comfort, and durability in demanding work environments.

Made with water-resistant pull-up full grain leather, it ensures strong resistance against external agents while maintaining flexibility. The 3D mesh lining provides excellent breathability and moisture control, keeping the foot dry throughout the day.

It features an AirToe Composite metal-free safety toe cap for lightweight protection and a soft polyurethane dynamic footbed for enhanced comfort. The dual-density PU sole with Infinergy® midsole delivers superior cushioning, energy return, and high resistance to slipping, oil, and abrasion.

With electrical hazard protection, the Storm MF is built for safety in high-risk working conditions, combining performance and comfort in a clean black design.

UPPER

Pull-up full grain leather – water resistant

LINING

3D Mesh lining for superior breathability and moisture wicking

TOECAP

AirToe Composite Metal Free

ANTIPERFORATION

-

MIDSOLE

In soft polyurethane dynamic compound
