

**Model:** ALLOY

**Article:** WMP428NB

### DESCRIPTION

The ALLOY U-Power jacket is designed to provide certified safety and extreme durability even in industrial settings. Made of cotton/polyester/antistatic blend fabric with advanced treatments, it maintains high performance even after industrial washings up to 75°C.

Featuring a central covered zipper closure, FR Velcro chest pocket, FR covered zipper front pockets, FR silicone logo, FR adjustable button cuffs and integrated loop for communication devices or detectors, ALLOY offers extended comfort and functionality.

Completing the garment are flame-retardant printed pictograms and a 4-cm elongated back bottom to provide lumbar protection even during bending or arm lifts. ALLOY is ideal for environments requiring industrial strength, safety and reliability.
