

**Model:** ASPEN UK s ESD

**EU Norm:** EN ISO 20344:2021

**Article:** 0RL20574

## DESCRIPTION

**Work shoes** that are eco-friendly and meet sustainability criteria, made to cut down CO2 emissions from renewable sources. They are made of soft **microfiber with a high percentage of recycled material**. Aspen uk is a safety work shoes equipped with an **ultralight AirToe Aluminium toe cap** for toe and forefoot protection, augmented by a **reinforcing toe cap**. **Save&Flex plus green metal free anti-puncture system**, made with 59% recycled materials. The **sole** of these eco-sustainable work shoes originated from renewable sources is made **of 100% BASF PU** and is **abrasion-resistant**, **oil-resistant**, **slip-resistant** and **antistatic**, augmented by the **Infinergy® system** that improves performance through **more than 55% more energy return** with each step. Aspen uk highly breathable because they feature **WingTex® Green breathable air tunnel lining** made with 66% recycled materials that ensures maximum comfort and foot well-being. Comfort is also ensured by BASF's **anatomical**, **antibacterial**, **anti-static** and **self-molding PU WOW Green insole**. Low-top safety shoes with **cold insulation protection**, ideal for automotive, industry, logistics and assembly line.
