COMPOSITION

60% COTTON, 40% ELASTOMULESTER (245 gr/m2)

BEAT

WHY359BC

DESCRIPTION

Beat work pants are designed to give you freedom of movement and comfort in any situation.
Made of a sturdy **cotton/polyester stretch** fabric with elastic waistband inserts, they fit snugly to your body, ensuring a comfortable fit all day long. Their **breathable construction** helps keep you cool and dry, even during intense activities.
Durability is ensured by triple stitching and an accentuated back yoke that offers added protection for the lumbar region. The pre-shaped fabric at the knees makes your every movement smoother and more natural, while the central zipper and **rubberized scratch-resistant button** closure ensures lasting practicality.
The bottom of the pant is also extendable by 2 inches for a custom-made fit. Beat is a multi-pocket pant that allows you to have all your tools at your fingertips. It features two large front pockets, two back pockets with flaps and Velcro, a zippered coin pocket, and a multifunctional side pocket with Velcro, which contains a convenient retractable **badge holder** . There is also a practical **meter** pocket and a **hammer webbing** . For your safety, the design is enhanced by **reflex inserts** below the knee, on the side pocket and on the back pockets, which increase your visibility in low-light conditions.
The soft plastic **D-ring** completes the equipment, making this garment the ideal choice for any professional seeking reliability, comfort and practicality.

U-EME

Technical fabric with elastomultiester for high performance. Provides permanent elasticity, dimensional stability and mechanical strength, maintaining shape and comfort even after intensive use.

STRETCH FABRIC

Stretch cotton fabric. Combines cotton comfort with elastomeric fiber functionality to create garments that are comfortable, durable and highly breathable.
