BLIT ESD

0UT20154

DESCRIPTION

U-Power's **Blit work shoes** are the ideal solution for those who work in intensive environments and want tough, durable shoes. The upper is made **of high-quality water-repellent pull-up leather** , **with an extra-reinforced PU toe cap** that provides added protection against impact and abrasion. The **FiberToe toe cap** offers **excellent protection** while maintaining low weight, while the Save & Flex® PLUS anti-puncture footbed effectively prevents the risk of punctures during daily work. The **abrasion-resistant** , **oil-resistant** , **anti-static** and **slip-resistant PU/PU outsole** ensures **optimal grip on every surface** , even the most difficult. The **three interchangeable U-Power original footbeds** in the package allow you to choose the most comfortable fit for prolonged use throughout the working day. These **low-top safety shoes** are perfect **for heavy-duty environments** such as machine shops, industrial warehouses and manufacturing plants, where safety and sturdiness are a must.

PROTECTION CLASS

S3S CI SC LG FO SR

EU NORM

EN ISO 20345:2022+A1:2024 S7S SC CI LG FO SR

SIZES

35-49

UPPER

Soft and durable water-repellent pull-up leather with TPU support heel. Extra reinforced PU toe cap

LINING

Wingtex® with breathable air tunnel

TOECAP

FiberToe

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11-12-13 Mondopoint

FIBERTOE TOE CAP

Fibertoe toe cap. Made from fibreglass to provide high mechanical resistance to impact and crushing. Weighing approximately 52 grams, it offers thermal insulation, flexibility and comfort, whilst keeping the footwear lightweight and safe.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

BOA® FIT SYSTEM

BOA® Closure System. Fast-lacing technology that replaces traditional shoelaces with a micro-adjustable dial, lightweight stainless-steel laces, and low-friction guides. Designed to provide a precise, even, and customized fit with a simple turn, it ensures stability and safety throughout the working day. The system is resistant to impacts, mud, and wear, and allows the footwear to be removed quickly when needed.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
