BOB s ESD

0SN10234

DESCRIPTION

High-top work shoes with highly **abrasion-resistant Putek Plus upper** . **Wingtex® inner lining is air tunnel** , with special microcells that absorb and disperse moisture, ensuring high **breathability** and **prolonged comfort** . **Anti-static** , **slip-resistant** and **oil-resistant safety footwear** , ideal for those working on slippery surfaces or in contact with oils. The sole is made of PU/PU Light Grip. The **U-Power Original toe cover** is designed to ensure **increased comfort** and a **prolonged** feeling of **well-being** , with **self-molding properties** that distribute body weight evenly over the entire sole of the foot. Toe-to-toe safety is ensured by the **AirToe Aluminium toe cap** and the **Save&Flex Plus anti-puncture system** , the innovative **"no metal** ," **lightweight** , **flexible** and **safe footbed** sewn directly onto the upper that provides protection for the entire surface of the foot. **Work shoes** ideal for people working as **warehousemen** , **bricklayers** , **carpenters** , **plumbers** , **gardeners** , **farmers** , **tire dealers** , **mechanics** , **electricians** , in **logistics** and **trucking** .

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48

UPPER

PUTEK® PLUS highly abrasion-resistant benefits

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS®, "no metal" puncture-resistant footbed

MIDSOLE

U-Power original

SOLE/TREAD

PU/PU LIGHT GRIP

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
