BOSTON s ESD

0RI11044

DESCRIPTION

Water-repellent mina grain leather **safety shoes** with **non-slip** , **anti-static** , **anti-oil** , **anti-abrasion** sole and special protection of the sole from cold (At temp. ≤ 10 °C.). Comfort and well-being ensured by the presence of **Wingtex®** air channel **lining** and the **"WOW2" insole** consisting of an arch-plantar structure **with anti-fatigue insert** that can reduce body stress and ensure greater stability and balance. **Work shoes with** lightweight Airtoe Composite **toe cap** and totally textile Save & Flex® PLUS **Puncture resistance system** for toe and sole protection. **Men's** and **women's** quick release **safety shoes** ideal in: **transportation** & **logistics** , **gardening** & **agriculture** , **mechanic** & **tire repair** , **laborer** , **bricklayer** , **craftsman** , **carpenter** , **electrician** , **plumber** , **painter** , **gas station attendant** .

UPPER

Fine grain leather, water repellent

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
