

BRADLEY s ESD

0RV20144

DESCRIPTION

The **bradley** style with **breathable Nylon upper** and **anti-abrasion toe film** is a **super lightweight summer work shoe** . The **innovative outsole** made with a new-generation PU compound that is especially lightweight and the **new Puncture resistance system** significantly reduce the overall weight of these **lightweight safety shoes** while providing maximum grip and protection for the sole of the foot.

The **AirToe Aluminium toe cap** in turn contributes to the lightness of the shoe, making the Red Leve line the **lightest safety shoes** in the U-Power range.

Men 's and women's work shoes with **slip-resistant** soles, **abrasion-resistant** , **oil-resistant** and **anti-static protection** ideal for **warehouseman** , **transport and logistics** , **carpenter** , **electrician** and **craftsmen** in general.

And, of course, prolonged comfort and well-being are ensured by presenting the **Wingtex®** air tunnel **lining** and the **antibacterial** and breathable **U-Power Original insole** made of lightweight polyurethane compound.

UPPER

Breathable nylon and anti-abrasion film to protect the toe

LINING

Wingtex® breathable air tunnel

TOECAP

AirToe Aluminium

PROTECTION CLASS

S1PS FO SR

ANTIPERFORATION

Save & Flex Air
