BRIO

WFU341DG

DESCRIPTION

Brio is **U-Power's work vest** that represents innovation in protection and comfort for professionals. **Made of water-repellent softshell** with microfleece inside, it offers advanced technology through the inclusion of graphene, which ensures even heat distribution and durability in all weather conditions. This vest is designed to combine light weight and strength, ideal for intensive use in work environments. **Numerous pockets** , including two handwarmers and two vertical zippered chest pockets, offer **unparalleled convenience** . The right pocket features a zipper with contrasting teeth, while the two large inside pockets allow you to carry bulkier items safely. The design is enhanced with **reflective inserts** on the chest and back, which improve visibility, while the **waterproof center zipper** provides additional protection against the elements. Details such as the rubber label "lion's head" logo and the "U-Power" logo on the chest and back complete the design. Available in four different color variants: Black Black, Deep Blue, Dark Green, Grey Grey.

GRAFENE

Ultra-light structure with high thermal conductivity that promotes even heat distribution, offers antimicrobial properties and enhances fabric durability.
