

BRUCE s ESD

0RV20026

DESCRIPTION

Bruce is the style of **super lightweight work shoes** with breathable **Nylon upper** and **anti-abrasion film on the toe** . These are **summer safety shoes** that use an innovative **sole** made with a **new generation** PU compound that is particularly lightweight and significantly **reduces the** overall **weight of the shoe** . The weight of the shoe has been further lightened by the use of an **ultralight Puncture resistance system** to protect the sole of the foot and **AirToe Aluminium toe cap. Comfort** and **prolonged well-being** are ensured by presenting the **anatomical U-Power Original footbed** made of lightweight, **antibacterial** and **breathable** polyurethane compound and the **Wingtex®** air tunnel **lining** that ensures high breathability and foot health. **Work shoes for men** and **women** with **non-slip, abrasion-resistant** , **oil-resistant** soles and **anti-static protection** . Ideal safety footwear for: **warehouse worker** , **transportation & logistics** , **electrician** , **carpenter** and general **craftsmen** .

UPPER

Breathable nylon and anti-abrasion film to protect the toe

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

New generation PU compound anti-abrasion, anti-oil, anti-slip and anti-static

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 S1 PS FO SR

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

SIZES

35-48

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
