DESCRIPTION

U-Power's Bunker Pant is a high-visibility, multi-risk garment designed for complete protection and comfort in the most adverse weather conditions.
Made from flame-retardant and antistatic materials, the pant pairs perfectly with the NEBRIS and ONYX garments, creating a complete safety system.
Key features: 5 cm flame-retardant reflective bands, covered zipper and buttons on the leg bottom, inner drawstring and elastic waist, Velcro closure pockets and heat-taped seams to ensure water proofing and total protection. Ideal for those who work outdoors and need maximum visibility and safety.
