

CAESAR

0RV20324

DESCRIPTION

Lightweight and high-performance safety footwear, ideal for everyday use in professional environments. The water-repellent nubuck-effect microfiber upper ensures durability and comfort, while the AirToe aluminium toe cap provides reliable protection without adding unnecessary weight.

The ultra-lightweight textile anti-perforation system guarantees safety and flexibility, complemented by a new-generation PU outsole that delivers stability and long-lasting performance. Equipped with ESD protection and the BOA® Fit System for a precise and quick fit.
