DESCRIPTION

Safety footwear with Airtoe Composite toe cap and **Save & Flex® PLUS Puncture** resistance system for complete toe and sole protection. **Ultra-breathable low-top work shoes** with nylon upper, soft suede inserts and Wingtex® **air tunnel lining** , ideal in warmer months. Comfort is ensured by the presence of the **WOW2 footbed** consisting of a self-molding arch support structure and **an anti-fatigue insert** that can dissipate body stress and improve **balance** and **stability** , greatly increasing the perception of **well-being** . **Anti-static safety shoes** with **anti-oil** , **non-slip** and **anti-abrasion** soles. **Work shoes comfortable** and **lightweight** for **men** and **women** that are well suited for use in different work areas such as: **transportation** & **logistics** , **construction site** and **mason** . **craftsmen** , **carpenters** , **electricians** , **plumbers** , **painters** , **laborers** , **gasoline workers, gardeners** and **farmers** , **mechanics** and **tire dealers** .

UPPER

Ultra breathable nylon and soft suede leather

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

PROTECTION CLASS

S1PS FO SR

EU NORM

EN ISO 20345:2022 SB S1 PS FO SR

SIZES

38-47

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
