DOM

WSK405BS

DESCRIPTION

The **Dom** underwear jersey is the essential first layer for dealing with colder work days or days with varying temperatures. Made of a **quick-drying technical fabric** (65% polyamide - 35% polyester), it ensures the perfect balance between **thermal resistance** and **breathability** , keeping the body warm and dry even during the most intense activities.
Breathable inserts positioned on the shoulders and hips promote targeted ventilation in areas of increased sweating, contributing to constant body temperature regulation and optimal comfort. The ergonomic cut and **close fit** allow the jersey to follow every movement of your body without constriction, making it the ideal garment to wear under jackets, sweatshirts or winter workwear.
Choose Dom for reliable protection and lasting comfort in any situation.

SIZES
