ENIF

WHL308YF

DESCRIPTION

Enif is U-Power's **high-visibility work polo** shirt that combines comfort and style, making it ideal for those working in hazardous environments with low lighting. The design features **reflective stripes** applied to the torso and sleeves, **ensuring excellent visibility** in any situation. Made of fabric with high wicking capabilities, the polo shirt ensures **freshness and comfort** even during the most intense work days, while maintaining excellent wear resistance. The ribbed knit collar, fastened with three buttons, adds a touch of practicality and style. Equipped with **sweatband** , this polo shirt offers added protection and comfort against the skin, confirming it as a reliable choice for every work requirement. This polo shirt is **durable for up to 25 washes** , maintaining its characteristics. The product is available only in lots of 3 pieces (code HL308) and 30 pieces (code CY308).
