

ERMES s ESD

0RN20104

DESCRIPTION

ermes is a **modern style** work shoes resulting from the union of **innovation** and **design** characterized by **high quality materials** and high performance. Safety shoes with **water-repellent nubuck-effect microfiber upper** with polyurethane **reinforcement toecap** and soft white **calfskin lining** that extends from the toe to the heel ensuring a feeling of lasting comfort during the workday. Safety shoes feature **an anatomical** , **antibacterial** and **breathable U-Power Original footbed** in soft white calfskin to ensure maximum comfort all day long, and **Infinergy® system** allows for an optimal energy return of more than 55 percent with each step. ermes guarantees maximum safety thanks to the **lightweight AirToe Aluminium toe cap** and the totally **metal free Save & Flex® PLUS Puncture resistance system** that ensures total protection of the entire sole of the foot as the footbed is sewn directly to the upper. Specific protection for **cold insulation** of the bottom of the shoe.

UPPER

Microfiber nubuck effect, water-repellent with polyurethane reinforcement toe cover

LINING

Soft white calfskin leather

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

U-Power original, anatomical soft white calfskin leather, breathable and antibacterial

SOLE/TREAD

PU/PU and Infinergy®

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

WHITE TEX

Made from nanofibre to ensure maximum protection whilst keeping the weight to a minimum. Weighing around 40 grams, it is the lightest option in the range, designed to optimise balance and reduce fatigue during prolonged use.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

INFINERGY®

Closed-cell expanded polyurethane cushioning insert designed to return energy with every step. Engineered to reduce muscle fatigue, it provides consistent energy return during both walking and prolonged work activities, ensuring high levels of comfort and long-lasting cushioning in all working conditions.

U-POWER ORIGINAL LEATHER FOOTBED

Anatomically shaped footbed made of soft white calf leather with arch support structure. It features a self-moulding BASF compound designed to evenly distribute body weight pressure across the sole of the foot, enhancing comfort throughout the day.
