DESCRIPTION

Safety footwear with **Vibram sole** , **anti-slip** , **anti-oil, anti-static** and with special protection of the sole from cold (At temp. ≤ 10 °C.). **Low-top safety shoes** with **water-repellent** mine grain leather suitable for use in **cold climate** situation, **mine** and **oil field** . **Men's work shoes** with Airtoe **composite toe cap** and Save & Flex® PLUS **tessitle Puncture resistance** system sewn directly to the upper to ensure **100% protection** over the entire foot surface. **Work shoes** that are **slip-resistant** , **comfortable** and **lightweight** , with WOW2 **self-molding insole** and **anti-fatigue insert** that can reduce body stress and improve stability and balance, resulting in a greater perception of well-being and prolonged comfort. Wingtex® air tunnel lining for **high breathability** and foot health.

UPPER

Fine grain leather, water repellent

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/VIBRAM

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

VIBRAM®

A world leader in the industry, Vibram® develops rubber soles designed to ensure grip, stability, durability and safety. The result of over 80 years of research and innovation, they combine advanced design and exclusive compounds to deliver high performance, comfort and reliability in any environment.

PROTECTION CLASS

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
