## DESCRIPTION

Tall, rugged work shoes with water-repellent, soft and durable pull-up leather upper. Safety shoes with Airtoe composite toe cap and Save & Flex® PLUS textile Puncture resistance system, sewn directly to the upper to ensure 100% protection over the entire surface of the foot. The highly breathable inner air tunnel lining ensures foot health and well-being. Comfort is enhanced by the presence of the WOW2 footbed, which, thanks to its self-molding arch support structure with anti-fatigue insert, provides reduced body stress and improved stability and balance, ensuring greater safety and a prolonged feeling of well-being. Men's safety shoes, also ideal for a female audience, suitable for use in wet and cold environments such as agriculture and gardening but also for craftsmen, electricians, plumbers, carpenters, painters, gasoline workers, construction site and bricklayers, mechanics and tire dealers, transportation and logistics. Non-slip shoes for work with PU/PU soles that are anti-oil, anti-static, anti-abrasion and special protection from cold (At temp. ≤ 10 °C.).

## UPPER

Soft and durable water-repellent pull-up leather

## LINING

Wingtex® breathable air tunnel

## TOECAP

AirToe Composite

## ANTIPERFORATION

Save & Flex® PLUS benefits

## MIDSOLE

Antifatigue WOW2

## SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

## ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

## AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

## SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

## ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

## WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
