INARI

WDW369BC

DESCRIPTION

The **Inari** work parka is the perfect solution for those looking for a winter garment that is both lightweight, durable and functional.
This padded parka is **water-repellent** and features heat-sealed armholes and shoulder seams to give you maximum protection from the elements. The soft microfleece inner collar, contoured hem and adjustable Velcro cuffs offer a comfortable and customizable fit.
Inari is a multi-pocket parka that provides unparalleled practicality. The front features two zippered **handwarmer pockets** and a multifunctional vertical chest pocket.
In addition, you will find two large inner pockets, one mesh and one zippered, and another vertical chest pocket.
All these pockets allow you to always have your tools and personal items at hand.
The design of this parka is enhanced by details that combine style and safety. **Reflex inserts** on the chest and back increase your visibility, while the concealed, drawstring-adjustable hood protects you when needed.
The jacket is also designed for customization, thanks to an internal back opening that facilitates printing and embroidery, making the Inari parka your ideal ally for any work challenge.
