**EU Norm:** EN ISO 20344:2021

**Article:** 0RI20334

## DESCRIPTION

Work shoes Carbon Offset that reflect the criteria of eco-sustainability and respect for the environment, ensuring zero Co2 emissions. U-Power Green shoes use recycled materials and renewable sources to achieve climate neutrality while maintaining a high level of comfort and safety for the worker with the quality recognized to the U-Power brand.

These lightweight, low-top safety shoes from the Red Industry Green range/assortment have an upper made of Putek® Spider Repet with a high percentage of recycled material and highly resistant to abrasion. Eco-bio footwear with Save & Flex Plus Green totally "Metal Free" Puncture resistance system consisting of 59% recycled material and ultralight AirToe Composite toe cap that weighs only 50 gr. Antibacterial, anatomical, antistatic and self-molding WOW2 Green footbed made of BASF's 100% renewably sourced PU that accommodates the foot with a pleasant feeling of lightness and relief for all-day comfort and well-being. WingTex Green air tunnel lining, which uses 66% recycled material, highly breathable. The sole is anti-abrasion, anti-oil, non-slip and anti-static and is made from BASF's PU, obtained from 100% renewable sources. Eco-friendly shoes for work situations where high abrasion resistance is required in industry and assembly line, automotive and logistics.

### UPPER

Highly abrasion-resistant Putek® Spider Repet with a high percentage of recycled material

### LINING

Wingtex® Green breathable aria tunnel with 66% recycled material

### TOECAP

AirToe Composite

### ANTIPERFORATION

Save & Flex PLUS® Green, "no metal" puncture-resistant footbed with 59% recycled material benefits

### MIDSOLE

WOW2 Green

### SOLE/TREAD

BASF's 100% renewably sourced PU Abrasion-resistant, oil-resistant, slip-resistant and antistatic

### ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

### SIZES AVAILABLE

35-48
