

KAIA

WHL375YF

DESCRIPTION

The **kai 5-in-1** technical parka is your perfect ally for dealing with all weather conditions in a single garment.

Designed for maximum adaptability, it consists of a **waterproof** and **breathable** outer shell with heat-taped seams and a removable, sleeveless inner padding that you can also use separately. Thanks to this modular structure, the parka **can be worn in five different configurations**, giving you a practical solution for every season.

Reflective bands sewn on the torso and sleeves ensure optimal visibility and enhanced safety in the workplace.

Functionality and practicality are provided by the numerous pockets. The outer shell features a central zippered closure, two large front pockets and a chest pocket, all zippered.

The inner bodice also features two bottom pockets and one chest pocket, all zippered, as well as having removable sleeves. An adjustable and detachable hood and adjustable Velcro cuffs complete the outfit.

A versatile, high-performance garment that is ideal for dealing with all weather conditions. This suit is designed to withstand up to 25 washes while maintaining its technical and comfort qualities.

The product is only available in batches of 1 piece (code HL375) and 10 pieces (code CY375).
