

Model: KEMI

Article: WHY368GM

DESCRIPTION

The **Kemi** work bomber jacket is the ideal solution for facing the **cold seasons** with lightness, comfort and durability. This padded winter bomber jacket is **water-repellent** and features heat-sealed armholes and shoulder seams to keep you protected from the elements. The soft microfleece inner collar and elastic ribbed hem and cuffs provide a snug, comfortable fit. Kemi is a multi-pocket bomber jacket that provides unparalleled functionality and practicality. The front features two zippered **handwarmer pockets** and two multifunctional chest pockets: one with a pen compartment and the other with an additional vertical zippered pocket.

In addition, two large inside pockets on the bottom, one mesh and one zippered, and a vertical chest pocket round out the features, allowing you to always have everything at hand. The design is enhanced by details that combine style and practicality. The concealed, drawstring-adjustable **hood** and **reflective inserts** on the logo and back ensure greater visibility.

The jacket is also designed for customization thanks to an internal back opening that facilitates printing and embroidery, making the Kemi bomber your perfect ally for any work challenge.
