Model: KENNETH

Article: WIN422WH

DESCRIPTION

The U-Power Kenneth work pants are made of cotton/polyester stretch fabric designed to provide comfort and practicality during work activities. The central plastic zipper closure with concealed metal hook ensures a stable and functional fit.
Equipped with an elastic waistband for superior comfort, it features triple stitching for added strength. The multi-pocket design includes two large, multifunctional side pockets and two back pockets, all with Velcro closures, as well as two American-style front pockets. Reflex inserts on the side and back pockets improve visibility in low-light conditions.
Available in packs of 20 pcs (WCY422)
