WIN289BC

DESCRIPTION

U-Power 's kyra **workwear jacket** is an item of clothing designed to provide **comfort** and **protection** in all weather conditions. Made of **soft shell mechanical stretch fabric** , this jacket features exceptional **breathability** , as well as being **windproof** and **water-repellent** , thus providing excellent defense against the weather. The kyra **winter work jacket** features two handy zippered front pockets, perfect for safely storing work items and tools. One of the highlights is the **detachable hood** , also zippered, which offers additional versatility as needed and weather conditions dictate. The jacket's pre-shaped sleeves ensure an optimal fit, following the natural movement of the body and increasing comfort during work activities. **Reflex inserts** positioned at elbow height **improve visibility** and safety in low-light environments. For added comfort, the winter work jacket has adjustable drawstrings and cuffs, allowing you to customize the fit to suit your needs. The contoured hem adds a touch of style to the garment, as well as enhancing coverage and protection. Available in three different color variants: **Black Carbon** , **Westlake Blue** , **Grey Iron** . Work jacket suitable in **transportation** and **logistics** , **building** and **construction** , **service** and **industry** . The product is also available in batch of 10 pieces (code CY289).

MECHANICAL STRETCH

Structural elasticity without added elastic fibers. Ensures comfort, flexibility and long-term shape recovery.
