LION FACE MASK

WAC209BF

DESCRIPTION

Facemask made by spot lamination of 2 fabrics.
Inner: Double antibacterial treatment and anti-drop treatment to ensure excellent breathability, eliminate the risk of skin irritation, and keep the face cool and dry.
Outer: SHIELD TRI-ACTION DWR, bi-elastic, tightly woven fabric with water-repellent finish. The two fabrics are finished with a border between them, which, together with the fabrics' mechanical elasticity and ergonomic shape makes for an excellent fit of the finished product. Washable masks.
