MADRID o ESD

0RI21052

DESCRIPTION

Lace-free safety shoes with New Safety Dry **water-repellent** and **breathable** upper. **White work shoes** with a **non-slip** , **anti-static** , **anti-oil** , **anti-abrasion** PU/PU sole and lightweight **Airtoe Composite toe cap** that weighs only 50 g. The **madrid** is an extremely **comfortable** and breathable **safety shoe** thanks to the Wingtex® aria tunnel lining. In addition, the **WOW2 insole** ensures well-being and **prolonged comfort** thanks to its self-molding properties and anti-fatigue insert, which allows a significant reduction in body stress and improves **stability** and **balance** . **Women's** and **men's work shoes** that are ideal in various areas of use and, in particular, **for the food** , **nursing** and **health care industries** .

UPPER

New Safety Dry, water-repellent and breathable

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Not present

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

PROTECTION CLASS

S2 FO SR

EU NORM

EN ISO 20345:2022 S2 FO SR

SIZES

35-48

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
