MAPLE s ESD

0RI21384

DESCRIPTION

Maple work shoes are **safety shoes** ***Green*** . Totally **"Metal Free " safety footwear** that mounts the **Save&Flex plus green anti-puncture system** made with 59% **recycled materials** and **ultralight AirToe Composite toe cap. Maple** is a **low-top** , **comfortable safety shoes** made with **recycled materials** from **renewable sources** and manufactured with an optimized production process to ensure **zero co2 emissions** , with the **quality** , **comfort** and **safety** recognized to the **U-Power** brand. **New Safety Dry upper** , **water-repellent** and **breathable** with high percentage of **recycled material** . **Anatomical WOW2 GREEN** PU **footbed** by BASF originated from 100% renewable sources and **antibacterial** , **anti-static** and **self-molding** that ensures comfort and well-being and long-lasting. **Abrasion-resistant** , **oil-resistant** , **slip-resistant** and **antistatic sole** made of **100% renewably s** ourced BASF PU.
Breathable Wingtex® Green air tunnel lining made from 66% recycled materials. **Eco-friendly safety shoes** ideal for: **automotive** , **industry** , **logistics** and **assembly line** .

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48

UPPER

New Safety Dry, water-repellent and breathable with high percentage of recycled material

LINING

Wingtex® Green breathable air tunnel with 66% recycled material

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS® Green, "no metal" puncture-resistant footbed with 59% recycled material benefits

MIDSOLE

WOW2 Green

SOLE/TREAD

BASF's 100% renewably sourced PU Abrasion-resistant, oil-resistant, slip-resistant and antistatic

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2 GREEN

Eco-friendly footbed composed of two technical elements: an arch support structure made from BASF polyurethane (PU) sourced 100% from renewable resources, featuring self-moulding properties to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. Designed to relieve stress associated with prolonged standing, it reduces daily fatigue during working hours.
