DESCRIPTION

Lightweight work shoes with **AirToe Aluminium toe cap** and **sole** made with an innovative, new-generation, **super lightweight** PU compound that can greatly reduce the weight of the shoe. The light weight of this **safety shoes** allows for greater freedom of movement, more energy and better performance. **Women's and men's safety shoes** with **highly abrasion-resistant** , **water-repellent** and **breathable** PUTEK® star upper. Shoe toe protection **with anti-abrasion film** . **Breathable shoes** with **anti-slip** , **anti-static** , **anti-oil** and **anti-abrasion** sole with innovative **ultra-lightweight anti-puncture textile insole** , ideal for: **craftsmen** , **electricians** , **carpenters** , **warehouse workers** , **logistics** and **transport** sector. Comfort and well-being guaranteed by **Wingtex®** breathable air tunnel **lining** and **U-Power Original** lightweight polyurethane compound **insole** , **anatomical** , **breathable** and **antibacterial** . **Safety footwear** with special sole protection from the cold.

PROTECTION CLASS

S3S CI FO SR

EU NORM

EN ISO 20345:2022 S3S CI FO SR

SIZES

35-48

UPPER

PUTEK® star and anti-abrasion film to protect the tip

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Aluminium

ANTIPERFORATION

Save & Flex Air

MIDSOLE

U-Power Original

SOLE/TREAD

New generation PU compound anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

SAVE & FLEX AIR

Save & Flex Air anti-perforation insert. Ultra-lightweight (extralight) protective insert designed to effectively protect the foot from nails and sharp objects without adding extra weight to the footwear. It provides high safety standards, flexibility, and full-foot plantar coverage, enhancing dynamic comfort during movement.

PU TEK STAR

A protective fabric featuring a geometric star pattern. It offers durability, flexibility and a PVC-free construction. Certified to ISO 20344:11, it provides air circulation and breathability four times greater than the minimum requirements for S3 safety footwear.

AIRTOE ALUMINIUM TOE CAP

Made from aluminium to combine lightness with protection, ensuring thermal and dynamic comfort for the foot. Weighing approximately 54 grams, it is designed to maintain high safety standards without adding weight to the footwear.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

U-POWER ORIGINAL

Anatomical footbed with arch support structure made from a soft dynamic BASF compound. It features self-moulding properties designed to evenly distribute body weight pressure across the sole of the foot, reducing pressure points and optimizing dynamic comfort.
