

MERENGUE

GUG00026

DESCRIPTION

U-Power's **Merengue work glove offers** superior **protection against mechanical and thermal hazards** , making it ideal for a variety of activities such as **logistics** , **construction** , **agriculture** , **service** and **industry** , **fishing** and **automotive** . Made with a **15-needle finish** , it provides a better tactile sense and **facilitates precision work** . **Na2 Technology improves grip** , making the glove durable and oil-resistant. Created to offer softness, elasticity and strength, it maintains its performance even at low temperatures. The **stretch Nylon cuff** ensures comfort during extended use, while **touchscreen compatibility** allows use of smartphones and tablets without having to remove the glove. Perfect for wet and dry environments, the Merengue glove combines protection, dexterity and comfort. Available in packs of 12 (GUG00026) and 144 (GUG14426) pieces.
