MONACO

WIN227WB

DESCRIPTION

Work pants made **of mechanical stretch poly-cotton** , which combines the durability and strength of polyester with the softness and comfort of cotton, while offering exceptional flexibility due to its stretch weave. Featuring **two large** multifunctional **side pockets, two front pockets** and a **back pocket** , the Monaco work pants are designed to keep tools and accessories close at hand, maximizing efficiency at work. The elastic waistband and accentuated back yoke provide additional protection for the lower back, ensuring support and comfort during long hours at work. The pre-formed knees conform to the natural shape of the body, allowing greater freedom of movement and reducing fatigue. Triple stitching increases the pants' resistance to tears and wear, while the **central zippered closure** and **rubberized scratch-resistant button** ensure practicality and durability. The rear tubular loop adds an additional element of functionality, making it easy to attach accessories or work tools. A distinctive detail of these u.lite U-Power work pants are the **reflective bands** sewn on the bottom of the legs, which improve visibility in low-light conditions, increasing user safety in potentially hazardous work environments. **Work pants** ideal **for** : **transportation** and **logistics** , **building and construction** , **service** and **industry** , **gardening** and **agriculture** . The product is also available in lots of 20 pieces (code CY227).

MECHANICAL STRETCH

Structural elasticity without added elastic fibers. Ensures comfort, flexibility and long-term shape recovery.
