

MONTANA UK s ESD

ORI11554

DESCRIPTION

Ideal **safety shoes** for rainy days thanks to the soft **pull-up leather** upper that is **water-repellent** and **breathable** . Montana uk is a work shoes equipped with a lightweight AirToe **toe cap made of composite** material that provides maximum protection for the toes and the front of the foot. Foot safety is enhanced by the **Save&Flex® PLUS** puncture resistance system consisting of a completely "no metal " Puncture Resistance System footbed that ensures total protection of the entire sole of the foot because it **is sewn directly to the upper** . Montana uk is also a very comfortable work shoes that ensures maximum comfort thanks to the **WOW2 anti-fatigue footbed** , designed to ensure balance and shock distribution at work. The sole of these high safety shoes is made **of abrasion-resistant , oil-resistant , slip-resistant and anti-static PU/PU** . Finally, it features **specific protection for cold insulation** of the bottom of the shoe, certified by the initials CI in the safety rating.

UPPER

Soft and durable water-repellent pull-up leather

LINING

Wingtex® breathable ariatunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
