

MOSKA UK s ESD

ORI21014

DESCRIPTION

Tall , **rugged work shoes** with **water-repellent** , soft and durable pull-up leather upper. **Safety shoes** with **Airtoe composite toe cap** and **Save & Flex® PLUS textile Puncture resistance system** , sewn directly to the upper to ensure **100% protection** over the entire surface of the foot. The **highly breathable** inner air tunnel **lining** ensures foot health and well-being. Comfort is enhanced by the presence of the **WOW2 footbed** , which, thanks to its self-molding arch support structure with **anti-fatigue insert** , provides reduced body stress and improved stability and balance, ensuring **greater safety** and a **prolonged** feeling of **well-being** . **Men's safety shoes** , also ideal for a female audience, suitable for use in **wet and cold environments** such as **agriculture** and **gardening** but also for **craftsmen** , **electricians** , **plumbers** , **carpenters** , **painters** , **gasoline workers** , **construction site** and **bricklayers** , **mechanics** and **tire dealers** , **transportation** and **logistics** . **Non-slip shoes for work** with PU/PU soles that are **anti-oil** , **anti-static** , **anti-abrasion** and special **protection from cold** (At temp. ≤ 10 °C.).

UPPER

Soft and durable water-repellent pull-up leather

LINING

Wingtex® breathable aria tunnel

TOECAP

AirToe Composite

ANTIPERFORATION

Save & Flex® PLUS benefits

MIDSOLE

Antifatigue WOW2

SOLE/TREAD

PU/PU, anti-abrasion, anti-oil, anti-slip and anti-static

ANATOMICAL INSOLE

Natural Confort 11 Mondopoint

AIRTOE COMPOSITE TOECAP

Airtoe Composite Toecap. A versatile solution made from a completely metal-free composite material. Weighing approximately 50 grams, it offers excellent thermal insulation and a lightweight design suitable for prolonged use in a variety of working environments.

SAVE & FLEX® PLUS

Save & Flex® PLUS anti-perforation insert. Textile, metal-free protective insert designed to provide superior lightness and flexibility compared to traditional steel plates. Sewn directly onto the upper, it ensures full-foot plantar protection. It offers sole penetration resistance up to 1100 N in compliance with current safety standards.

ESD (ELECTROSTATIC DISCHARGE)

Technology designed to continuously dissipate electrostatic charges accumulated by the human body to the ground. Certified footwear complies with the requirements of the CEI EN 61340 standards for the protection of electronic components, making it suitable for use in EPA (Electrostatic Protected Area) environments during both production and handling of sensitive devices.

WOW 2

Anatomical footbed composed of two technical elements: an arch support structure made from a dynamic BASF compound with self-moulding properties, designed to evenly distribute body weight, and an anti-fatigue insert made from a special BASF compound. This combination reduces bodily stress caused by prolonged standing, helping to minimize daily fatigue throughout the working day.
